4th Anniversary Service October 19, 2003

It is exciting to hear that this congregation is almost full every time they hold worship services. The “upper rooms” in the back are almost finished. Pastor Isaac is excited about the tent ministry. He has plans to go down to Hildago area before Christmas (\$500) and then after the first of the year he wants to go over to Guasave. (\$1050+gas)

Pastor Isaac has five men to help him on each trip. He wants to pay them each ten dollars a day. The Hildago trip will take one week and the Guasave trip will take two weeks. Pastor Isaac needs a truck with a camper, and a trailer to transport the instruments, tent and materials. We might have a truck. We are looking at a trailer for possibly \$700. The camper need not be new but needs to fit a full sized truck. He will need about \$150 dollars for gas to Hildago. I haven’t figured out gas for Guasave. Isaac said it is a 28 hour trip.

Pastor Isaac’s next priority was with the mission in the colonia, El Mesias. He needs to build a new two room bathroom there. A new hole will need to be dug, a cement foundation around the hole laid, walls built, and doors put on. The bathroom will be put out behind and to the left of the church as you look at the picture above. He estimates the cost to be around \$500.

Surprisingly, his top priority at the mission was to put down some type of tiling on the floor of the church. (20x40)

His final desire for the mission was to drill a well. I don’t think this is a deep well because he thought the cost would be around \$200.
