

News From Tijuana.

Greetings in Jesus Name.

I am happy to share what we have been able to do this month. First, I am happy because this month my beloved wife celebrated one more year of life.

"Her husband's heart is trusting in her,

And she will not lack earnings. " Proverbs 31:11

Many times due to my work and my occupations, my time is limited, but she is the one who encourages and supports me in many essential tasks for the ministry, one of them is to send a greeting message or a call on behalf of both to the members, even visit any of them if necessary.

I know I can be trust in the vocation that God is giving to her to serve at the ministry.

Also For me has been a hard time, in my job the labor demand has grown, I am finishing the last semester of my master's degree and I have a thesis on the doorstep, besides that the COVID has put us a test to subsist in the ministry.

Sometimes I feel that I can no longer, that I am exhausted, without strength and encouragement, but God infuses in me new breaths and desires to serve, so we continue here.

Things are going to change, and we are preparing to soon be able to open our temples, I have started to buy some necessary things that our government will be asking for when we open, but we have also tried to be in contact with those that we have been able to reach since before this pandemic.

However I thank God for Diana, as I mentioned before she is the one who helps me to be able to serve in the community, I thank God by families have become friends in these times and we can share the gospel.

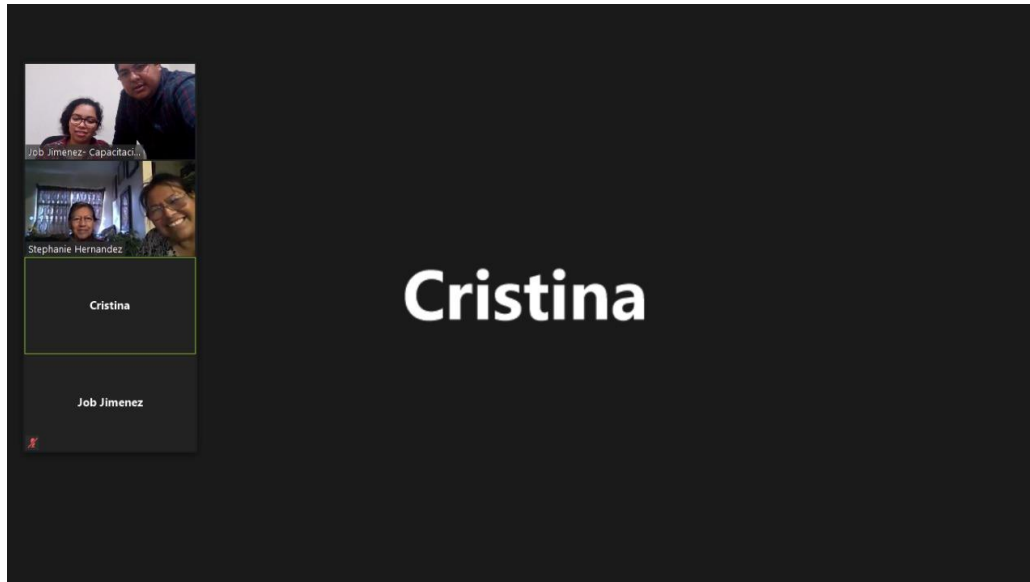

I have also started to make home visits for Bible studies, families that do not have internet or older people who cannot use technology, and this has turned out well, now I have a Bible study on Mondays at the home of Irene member of the congregation, we have started the catechism with 5 adults 6 children.

Diana helps me with the catechism with the children, and our plan is to be able to attend to them and also be able to share something with them, a sweet, an ice cream or any detail that encourages and cheers them.

Kids at Catechism class by Diana.

I have also started with a Bible study of the psalms on Tuesdays at 6:30 PM by ZOOM for members of the congregation. This to be praying and striving to continue on the path of faith.

Our desire is to be able to continue serving, and we hope in the coming weeks to be able to have small prayer groups in houses that invite or allow us, and those who are still afraid to go out, we want to make efforts through digital media.

I pray for your prayers, I know the work is dangerous now, we still live under COVID, but we trust God to take care of us as we continue in the proclamation of the kingdom and his saving word.

Yours in Christ

Job Jimenez.
